STACKED ABR/COCHLEAR HYDROPS ANALYSIS MASKING PROCEDURE (CHAMP)

COURSE OVERVIEW

This 1.5 day practicum is designed for clinicians who perform Stacked ABR and/or the Cochlear Hydrops Analysis Masking Procedure (CHAMP). It includes both a didactic presentation and supervised "hands-on" practice. Topics that will be covered include basic Stacked ABR and CHAMP theory, patient preparation techniques critical for obtaining reliable data, data collection processes, identification and control of post-auricular muscles (PAM) artifact, data manipulation processes inherent in the Stacked ABR procedure (integrated waveforms, derived bands and the stacking procedure), and CHAMP data analysis.
